

Apple Final Cut Pro

Key Information: 2009-10 Workforce Florida, Inc. Technical Skill Attainment list. Certification is on the CAPE funding list for 2009-10. DOE certification code is APPLE009.

GENERAL EXAM INFORMATION

Achieving a certification in Apple Final Cut Pro requires passing an online exam that is administered at an Apple Authorized Training Center. Level One exams can be taken at an authorized training center either at the conclusion of a training course or by going to the center solely for the purpose of taking the exam. Level Two exams must be taken as part of advanced classes taught at the Authorized Training Center. You can download an informational flyer by clicking here:

TEST PREP

Apple has provided a website that will give you guidance on taking the certification exam: www.training.apple.com. You can get current version numbers and recommendations for a prep course. Courses that are recommended to prepare for the Level 1 end user exam are: FCP 100, FCP 101, FCP 200. You can register for a class at an Authorized Training Center or you can purchase books that are available to help you prepare for the Level 1 exam. Check here: www.peachpit.com to access titles that will be helpful.

The required course for Level Two Certification is: FCP 300 and it must be taken at an Authorized Training Center before you are eligible for the exam at the conclusion of the course.

TAKING THE EXAM

You can take the Apple Final Cut Pro Level One exam at a Prometric Testing Center: <http://www.prometric.com/Apple/default.htm>. Click the link to register online or call 888.275.3926.

Apple also provides great material for educators. You can become a trainer and run your own school-based training center to give your students an edge when it comes time to certify them. [Click here](#) to download an informational brochure.
