

**INDUSTRY CERTIFICATIONS FOR STUDENTS ATTENDING ANY PROGRAM AT MTI  
THAT WILL GENERATE A STATE FUNDED INDUSTRY CERTIFICATION**

The high school Academic & Career Advisors will keep a spreadsheet of each of these students and be sure that each one is attached to a CAPE Academy at the home high school.

MTI must notify the high school advisors of:

1. The program in which the student is participating
2. The Industry Certification the student is eligible to take
3. When the student has taken the test and the pass/fail result

Industry Certification funding for these students who pass the industry certification test will be shared 50/50 with MTI once they have graduated from high school.
