

Give a Dollar. Launch a Scholar.

What if you could keep a low-income, at-risk child in school and help stop the cycle of poverty?

What if you could motivate them to stay drug-free, crime-free, and to make good grades?

What if you could help them succeed by pairing them up with a personal mentor?

What if you could help them become the first person in their family to attend college?

You CAN—by supporting Take Stock in Children with a payroll deduction of \$1, \$3, or \$5.

Your support can change a life. Forever.

Build our community one graduate at a time.

Take Stock in Children (TSIC) of Manatee County is a not-for-profit program that helps children from low-income families achieve academic and personal success through a postsecondary college scholarship and mentoring program. TSIC builds a stronger Manatee County, one graduate at a time.

Give them a chance to succeed.

TSIC scholars sign a contract agreeing to remain drug-free, crime-free, and maintain good grades. Students meet weekly with a volunteer mentor to help reach their academic and personal goals. Children may begin the TSIC program as early as the 6th grade.

Here's where you come in.

Your simple payroll deduction supports our local Take Stock in Children students. Your donation opens the door for deserving students to participate in this dream-fulfilling program.

A simple payroll deduction makes it easy to make a difference.

Give a dollar—launch a scholar!
